* No %

*1 For TMR preparation phase only

CONFIGURATION

CONFIGURATION

DTM CORE Version	Data Management	Data Exchange	Weight Indicator
ADVANCED	Local (DTM Suite)	USB - Memory card	DG600
	Cloud	3G Modem - USB - Memory Card	

ON-LINE LICENSE ACTIVATION:

Start using your DTM software it's easy: register your software online and get the DTM license activation by the following steps:

- Create you profile registering personal data on: www.register.dinamicagenerale.com
- Register the product license typing the serial number of your DTM;
- Wait for license activation file.

LICENSE BENEFITS:

The service contract (1 year validity) entitles DTM license subscribers to benefit from the following services:

- DTM software update via the Internet
- Direct support by phone or remote access to the PC
- App with KPI (Key Performance Indicators) to track feed efficiency and IOFC directly on your smartphone (available for DTM Cloud only)

NOTE:

The DTM License subscription includes all benefits for a period of 12 months from the License activation date. At the end of each 12 months coverage, the License subscription is renewable for another 12 months or more. If License is not renewed, for Cloud versions, the usage of software will be suspended and Licensee will no longer receive the benefits described above.
